

SLA Priority and Response Target Table

This table helps support agents decide whether an email requires human review, manager escalation, or specialist handling.

Priority	Typical scenario	First response	Required action
P3 Low	Feature question, plan explanation, how-to guide	Within 24h	Agent draft allowed; sampled review
P2 Medium	Billing question, login failure, permission issue	Within 8h	Support review before sending
P1 High	Duplicate charge complaint, production impact, security risk	Within 2h	Escalate to manager or specialist
P0 Critical	Large outage or suspected data leakage	Within 30m	Escalate to duty owner immediately
